Communication Earpieces

Custom Made Ear Plugs

Personal earpiece for your communication equipment. iPod Users / Security Guards / Newsreaders Theatre Personnel / Motor Sports

GN Making Life Sound Better

Communication & Personal Listening

Ear Pieces

ReSound Communication Earpieces work to deliver a comfortable, personal ear mould for use with your communication equipment.

Customise your iPod with ReSound Communication Earpieces

Most earpieces provided with personal listening equipment are a great start towards good sound quality, however there is a big quality leap when you move across from a universally fit product to a custom made mould.

Customised earpieces are made to fit your ear canal shape and size perfectly. This custom secure fit is not only comfortable, but it also allows for the earpiece to reduce outside noise while enhancing and delivering crystal clear sound and voice directly into your ear. The result is great sound quality with noise reduction.

The ReSound range of communication earpieces are flexible to fit a wide range of devices such as iPods, mobile telephones, security radios, in-ear monitors and MP3 players.

This versatile range of earpieces can be used in many ways including the following:

- Jogging or walking whilst listening to music or a news program
- In-ear monitors for musicians or sound engineers
- Skyping friends or family
- Listening to an iPod or MP3 player
- Using the mobile phone
- Security guard communication
- News presenters
- Theatre performer
